

During this period of school closure, Educational Psychologists are available to provide advice to parents/carers of children and young people with an autism diagnosis from the Bridge, the Winnicott Centre and Carol Kendrick Unit.

They can offer a problem solving phone consultation relating to any aspect of educating your child at home and/or about other education issues. This might include, for example, a forthcoming transition, or another school-related issue.

Please send them an email with your name and phone number. They will respond with a booking for an afternoon phone consultation.
