Marvin Story Time Show Outcomes – a tiny nutshell of the incredible outcomes from this simple homespun show.

Super Star Story Time Show Fan James watches the whole hour & clearly **communicates** his request to watch **again** when the show ends.

Mom of James shares her experience of the Story Time Show:

"I was not sure if he could sit still that long or pay attention for that long. Also, with all the noises and things, if that would be sensory overwhelming to him.

I just did not know what to expect. I was shocked that he could sit there the whole hour and be actively engaged and participating.

We are at a point when he cries when it's over. So we have recorded some so we can play them for him when we are not in the middle of Story Time class with Ms Gwyn just because he loves it so much."

Mom shares about the **Story Time Show**: "Thank you for creating this beautiful Story Time for our kids"

Wanted to also share this video with you, after story time, he hasn't let go of Marvin and he's been engaging in pretend play with him all day, clapping hands, trying to make him dance, and walk. It's been amazing to watch, especially as this has been one of our long term goals and so to see this suddenly emerge is so exciting!

Your Story time adds so much to our home education program it engages him, he claps along and smiles, laughs and he is glued to the screen. He doesn't react that way to any of the other shows or sessions we attend on zoom.

He loved it!!! He even started clapping his hands when you said goodbye to him! Thank you for creating this beautiful story time for our kids!
