Awesome	
 <p>Heat Pad - Relaxi... Padadaz</p>	This app simulates various heat-sensitive surfaces reacting to the heat of your fingertips. Simple, yet surprisingly relaxing and entertaining!

 <p>Balls</p>	Paint balls fall under gravity, rebounding off the walls and each other. As they collide, they produce harmonious sounds. As they glide, they leave colourful trails on your screen.
--	--

 <p>Baby-Silencer jolly1312</p>	This app is a very useful application to provide a visual exercise to develop visual awareness of small objects and tracking skills.
